

32nd Annual 2023 Solid Waste Technical Conference

Training Day: Monday, March 13, 2023

Granger Waste Services Main Office • 16980 Wood Rd., Lansing, MI

Conference Day: Tuesday, March 14, 2023

Kellogg Hotel and Conference Center • 55 S. Harrison Road, East Lansing, MI

In its 32nd year, the Solid Waste Technical Conference focuses on cutting-edge technological innovations and solutions related to the solid waste industry. The one-day conference, March 14, 2023, brings together national experts to present on issues related to policy, new technologies, regulatory updates and what the future holds for the industry.

This conference has been designed with waste management and environmental professionals in mind. Whether you're in private industry, a government employee, consultant, or equipment supplier, this conference will be beneficial to you. It will give you the opportunity to:

- Network with industry leaders and professionals in the solid waste field
- Hear about the latest technology and regulatory information
- Learn about emerging technologies and regulatory changes affecting the industry
- Gain information from presentations and case studies

TRAINING DAY — Monday March 13, 2023

A pre-conference training day is planned, designed to provide practical guidance and hands-on demonstrations.
